

## NEW YORK CITY NOW PREPARED

Metropolis Has Thousands of  
Drilled Men Ready for  
Emergencies.

NEW YORK, June 30.—This great metropolis has been rapidly prepared by the police, national guard and U. S. army officers, acting together, to meet an emergency. Some of the measures taken would be of equal value in case of a great fire, flood or riot, but just at present that has resigned to meet the needs of a sudden call to war.

Not all the preparations known by newspaper men and others to be in effect or contemplated here can be made public. There is no censorship, but a word to the patriotic—to paraphrase the proverb—is sufficient.

New York has a large unannounced foreign population. In the main these aliens are peaceful, but the authorities are taking no chances with the few firebrands among them.

Every danger point has been plotted. With the slightest indication of trouble, guards will be placed at all piers, public buildings, reservoirs, aqueducts, and important transportation junctions and terminals.

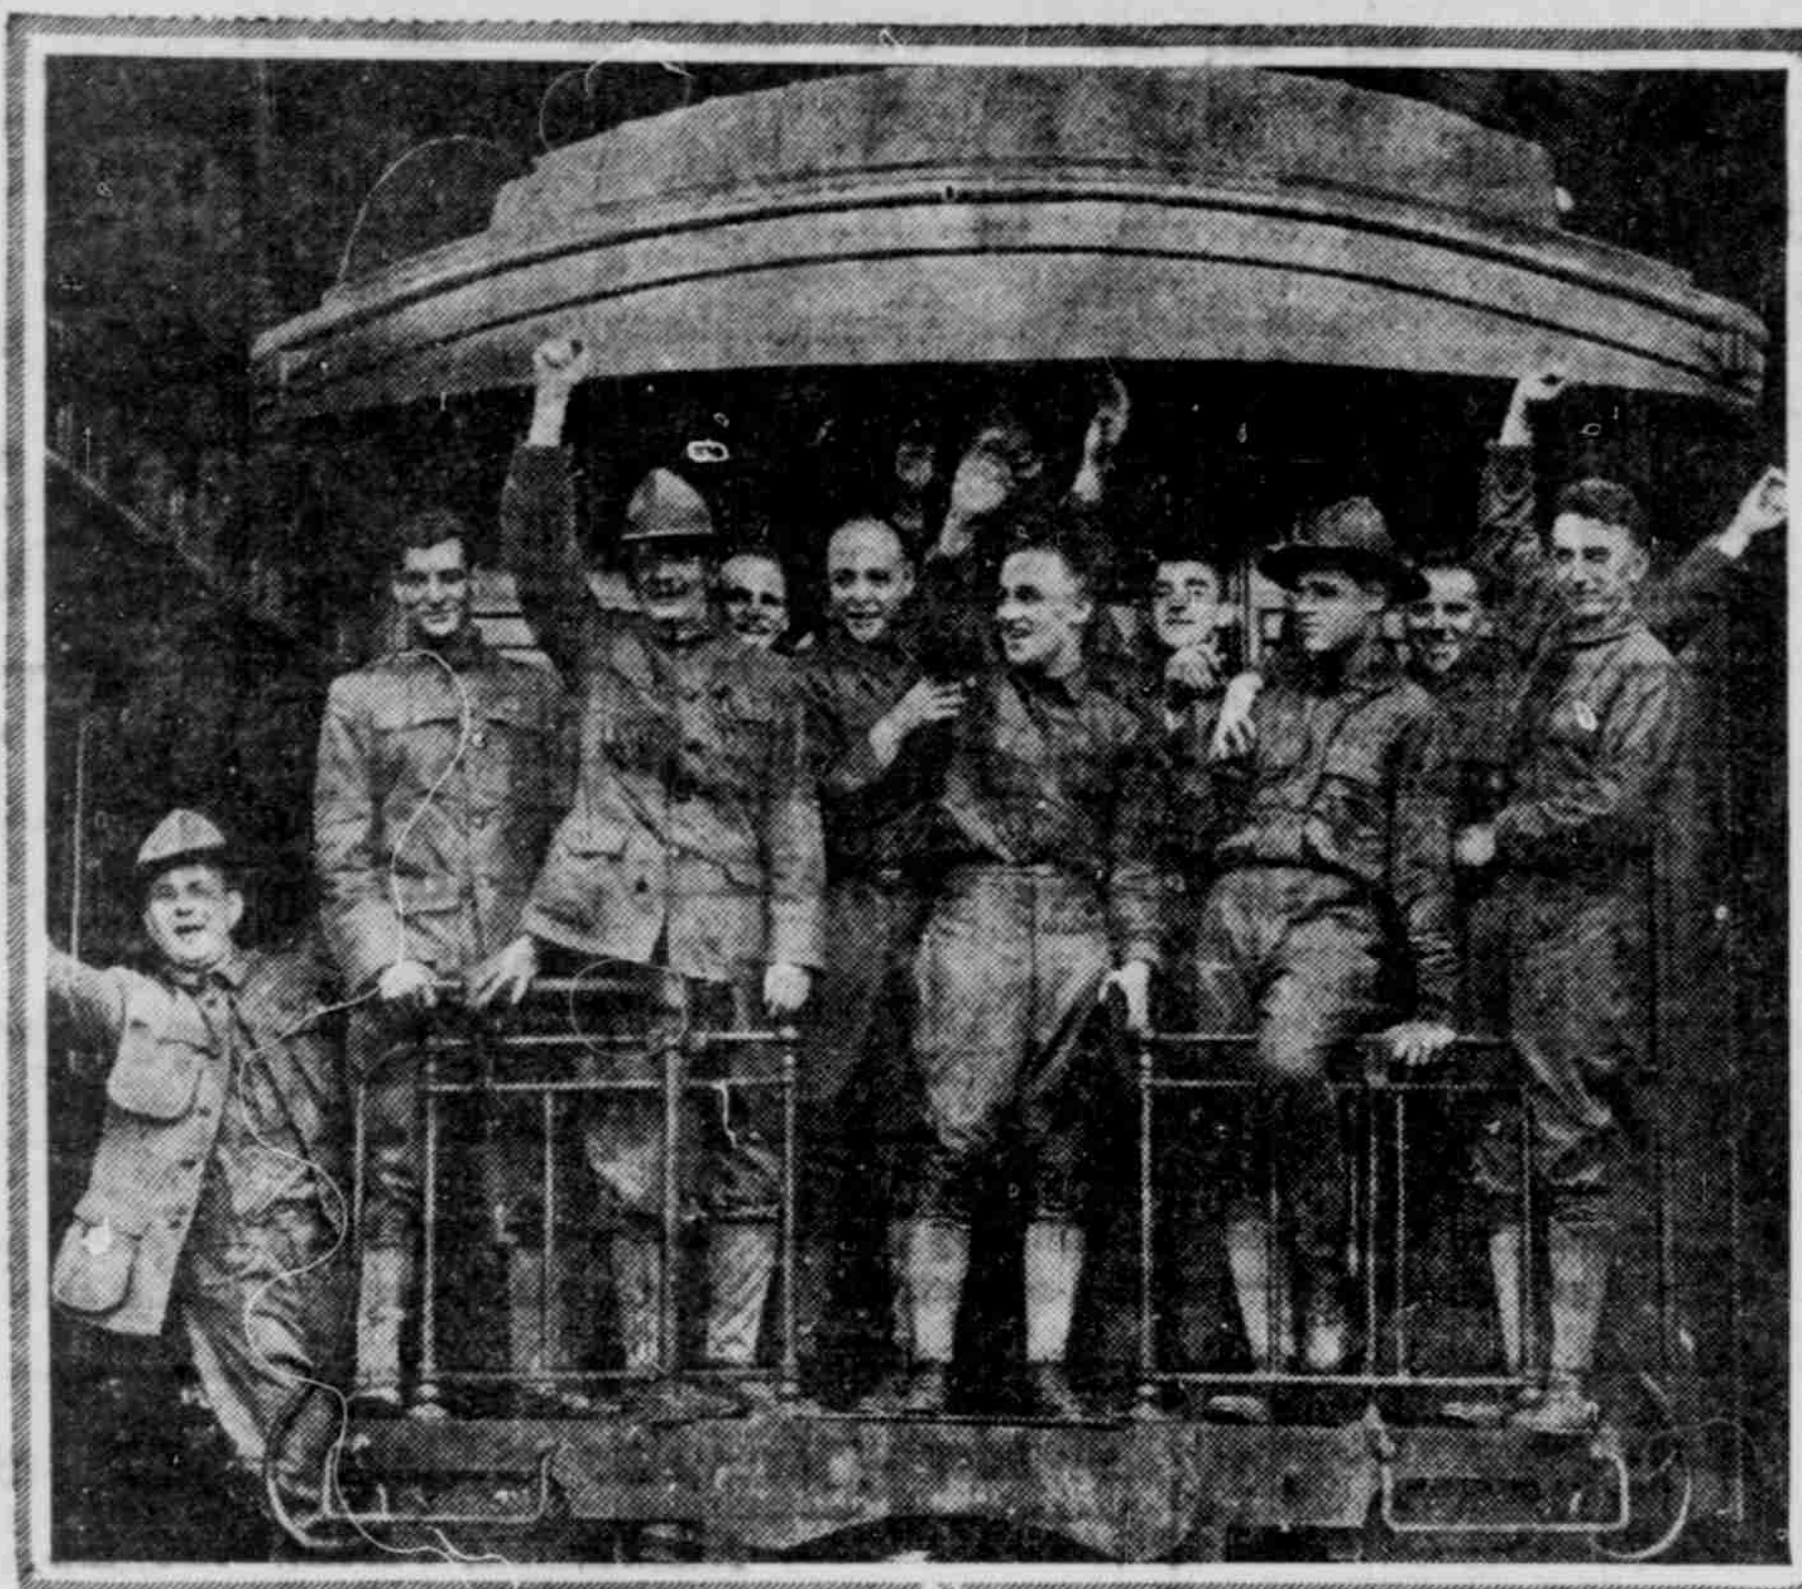

The program has been worked out mostly by Arthur Woods, police commissioner. If trouble comes his 19,000 big blue-coats will be reinforced immediately by an equal number of national guardsmen whose homes are in this city.

Besides these, Mr. Woods for some months has had 7,000 volunteer policemen training in the various police stations. These men have promised to do police work when called upon to supplement the regular force.

**Assigns Detective Squad.**  
Commissioner Woods has already dispatched a special squad of detectives to assist the regular force which guards the great aqueducts bringing water from the Catskills and the Croton watershed.

A few pounds of dynamite judiciously placed could make New York go thirsty for many a day. If enemies wreck telephone and telegraph wires within the city, the

## On Their Way to Mexico From New York

71ST REGIMENT, N.Y.N.G. LEAVING

ON FILM SERVICE

Singing and laughing, the 71st regiment, New York national guard, composed of 1,655 officers and men, all fully equipped and ready for active service, left New York on June 27 for the Mexican border.

At least one-fifth of the men in the regiment wear the little red, yellow, white and green bar, the badge of foreign service, indicating that they had been out in 1898.

police will not be at a loss. They have been trained to communicate between signal stations on the top of the skyscrapers by means of flags and lanterns.

Detailed information has been gathered concerning the number, size and power of river craft, of automobiles and of other vehicles which might be pressed into service. A list has been made of empty buildings that might be used either as barracks or to supplement hospital service; and the police have worked out a method for handling volunteer nurses and stretcher bearers.

**Mobilize Quickly.**  
The national guardsmen of the city have been divided into squads in such a way that each squad leader lives near the men of his unit.

An order to mobilize received at the regimental armory would be telephoned to the squad leaders. Each leader would then telephone to those

members of his squad who have telephones and would call on the other men of the squad personally.

Those men who could not be reached in this way would receive telegrams, which are now lying all made out in the desks of the company clerks in the armories.

Within 30 minutes after the receipt of the mobilization order, the officers, commissioned and non-commissioned, would have been notified and within 60 minutes the commanding officer, the field, staff and company officers and the first sergeants and quartermaster sergeants of each unit would be at the armory, while the subordinate leaders would be completing the notification of the privates.

Six hours after the order to mobilize had been received the guardsmen would be assembled, uniformed, armed and equipped, each with three days' emergency rations and ready to move out.

### ON HYPHENATE ALLIANCES.

We condemn all alliances and combinations of individuals in this country, of whatever nationality or descent, who agree and conspire together for the purpose of embarrassing or weakening our government, or of improperly influencing or coercing our public representatives in dealing with any foreign power. We charge that such conspiracies among a limited number exist, and have been instigated for the purpose of advancing the interests of foreign countries to the prejudice and detriment of our country. We condemn any political party which, in view of the activity of such conspirators, surrenders its integrity or modifies its policy. —From democratic platform adopted by St. Louis convention.
